RECORD ON THE STEALS.

INFORMATION FOR VOTERS IN EACH CONGRESSIONAL DISTRICT.

New Members of Congress Voted on the River and Harbor Steel and on the Monitor Job Engineered by Roach and Robeson.

[Alphabetically compiled from the Congressional Record.]

Under the above headings the New York Sun of September 6th published five columns of names of Congressmen. In its proper place is the following paragraph:

Nevada.

CASIDY, GEORGE W. (Dem.)—Not recorded on the original River and Harbor steel, voted against the increased steel, and sided the thieves by pairing on the vote. Ought to be ashamed of himself, for he lacks even the excuse of selfishness. No water in his State doesn't come from the clouds. Dodged the Holman amendment, and voted for the Roach-Robeson steel after it was grafted on the Naval Appropriation bill.

It is stated that two local dealers in coal have made a corner in charcoal and have on hand some 60,000 sacks of that article which they propose to hold until the price is pushed up to \$1 or \$1 25 per sack. Already the price has been raised from 35 to 48 and 50 cents in San Francisco.

Healthy Teeth.

The Herald (N. Y.) correspondent with the party in search of the lost crew of the Jeannette has been impressed by the beauty of the teeth of natives of Northern Siberia. He saw old men of sixty and seventy with sets of teeth small and pearly white, polished and healthy. Decay and suffering are unknown. A physician of Yakutsk attributed this to the habits and the kind of food eaten by the natives, and to a certain care taken by them from childhood up. First, the natives do not touch sugar in any form, for the simple reason that they cannot afford to buy it. Secondly, they are in the habit of drinking daily large quantities of fermented sour milk Summer and Winter, which is antiseptic, and is very beneficial in preserving the teeth. And lastly, they have a habit of chewing a preparation of the resin of the fir tree, a piece of which, tasting like tar, they masticate after every meal, in order specially to clear the teeth and gums of particles of food that may remain after meals. The gum or resin is prepared and sold by all apothecaries in Siberia, and is much used by Russian ladies.

INVISIBLE POISON.

How it Works Its Way Into the Body and How to Counteract it.

One of the great scourges of the present year in all parts of America has been malaria. This is a trouble so treacherous in its nature and so dangerous in its results as to justify cause apprehension wherever it has appeared. But there are so many erroneous ideas upon the subject that a few words are in order at a time when people are subject to malarial inducements.

Malaria, which means simply bad air, is the common name of a class of diseases which arises from spores of decaying vegetable matter, thrown off from stagnant pools or piles of vegetation undergoing decomposition. These spores when inhaled with the breath or taken into the system with water soon enter the blood and germinating there find a foothold, whereby the whole system is poisoned and the various functions disordered. When the germ theory of disease was first advanced it was supposed that these spores were of animal nature, and like the bacteria in diphtheria were propagated in the blood, but they are now conceived to be of vegetable origin, like the fungi found on decaying wood or in cellars.

The source of this state of the air is generally swamps or stagnant pools, which, partially dried by the sun, send forth vapors loaded with this malarial poison. These vapors descend to the earth in the night, cooled by the loss of temperature, and breathed by sleepers are readily inhaled. Hence persons living near stagnant pools or marshes are liable to be afflicted with chills and fever, and such localities are never healthy, though they are more so when the streams flowing into them are pure, and also when the water is high. Again the drainage of houses, slaughter houses, barns, etc., are a fertile source of malaria. One will often notice in coming into the neighborhood of one of these sluggish streams that pass through almost every village a most villainous smell caused by the offensive refuse which communicates its bad odor to the atmosphere, especially on hot days.

This absorbed into the system by the lungs or taken in through water, which also absorbs it from the air, poisons the blood and deranges the whole system. This poison is also developed in force in wells and springs when they become low, and the result of drinking these is the same as breathing the poisonous air. In a time of drouth the great quantity of vegetation that dries up in the meadows, stubble fields and pastures, the corn fields and forest leaves produce the same effluvia. On the prairies when large tracts of prairie ground are turned over, the decaying vegetation is a whispered cause of malaria.

The evils which follow malarial poisoning are almost infinite. Disease of a malignant and dangerous nature, accompanied by symptoms the most distressing are certain to manifest themselves and life is a burden so long as this poison remains in the system. The indications of malarial poisoning are loss of appetite, shortness of breath, pains about the heart, wasting of flesh and strength, despondency, nervousness, chilly sensations, unaccountable lassitude, dull pains in various parts of the body, head aches, dizziness, a coated tongue and dry mouth, night sweats, muscular debility, puffing under the eyes, an unusual color, or odor or sediment about the fluids passed from the system, etc. Any one of the above symptoms may be an indication of malarial poison in the body which needs immediate and careful attention.

But if malarial poison could not find a lodgement in the human body, it would be just as harmless as the oxygen of the air. The great difficulty is that, after being absorbed into the system, it produced obstructions in the stomach and lungs, clogs the circulation of the blood, effects the kidneys, liver and other organs, and brings on diseases of a most dangerous character. There is only one known way by which these diseases may be avoided or cured after they have once made their appearance, and that is by keeping the great purifying organs of the body in perfect health. These organs are the kidneys and liver. No one whose kidneys or liver are in a perfect condition was ever afflicted by malarial poison. And when these organs are disordered, they not only permit, but invite, these diseases to make their inroads into the body. It is now admitted by physicians, scientists and the majority of the general public that one medicine, and only one whose power has been tested and proven, has absolute control of, and keeps the kidneys and liver in constant health and hence prevents malarial sickness. This remedy is Warner's Safe Kidney and Liver Cure, the most popular medicine before the American people, and sold by every druggist in the land. It fully counteracts the evil effect of malarial poison in the system, and not only banishes it, but restores the members which that poison has weakened. How well it does this can be learned from the following:

KANSAS CITY, Mo., June 26th, 1882.—Moving from the State of New York to the western country, I was attacked with malaria and general debility. I had lost all appetite and was hardly able to move about. I had tried a great many remedies, but nothing bettered my condition until I began using Warner's Safe Kidney and Liver Cure, which seemed to help me right away, and I feel as well as I ever have in my life. It is a blessing to people in this

PERUVIAN SYRUP.

1412 Grand Ave., of William & Co., Hardware.

This great remedy has proven its power in innumerable cases, and is today more extensively used in malarial districts, whether in cities or in the country, than any or all other remedies for the cure of the same class of disease. No one can afford to trifle with the first symptoms of malaria, but instant care should be taken to check it on the start before its evil influences overshadow the life.

A CANDID DEMOCRAT.

The Carson Bee takes high ground on the District Judgeship. It says: The office must be considered as cutting no special figure in politics, and should be filled by an able jurist, a person well versed in law, whose duty as such officer would be considered paramount to the wishes and desires of legal gentlemen engaged in litigation before such tribunal. We should prove traitors to conscience to bolster up a man's claims for office simply because he professes to be a Democrat. General Edwards, the Republican candidate, is a lawyer of many years' experience, an able jurist, fully versed in the elementary principles of jurisprudence, and is fortunate in being pitted against Mr. Judge, the Democratic nominee.

EDITORIAL NOTES.

A census circular shows that Massachusetts fisheries give to the world over 840,000,000 pounds of fish worth in the warehouses over \$10,000,000. Besides them are factories for the manufacture of isinglass from dried fish bones and the production of liquid glue from fish skins.

The first broadside of the campaign will be fired at Candelaria on the 27th inst., when Emeralds will wake up and show what she intends to do. Nearly every candidate on the Republican State ticket will be present and exchange views with the people.

OREGON—3,000 Republican majority!

VERMONT—11,000 Republican majority!

MAINE—10,000 Republican majority!

NEXT!

The Appeal says nearly all the fast horses of the coast will be at Reno, and efforts will be made to get a week's racing in Carson after the Fair here. That will be a double inducement to visitors.

The Eureka Sentinel says: "Mrs. J. H. Dennis returned last night from a visit to California." In breathless eagerness we ask, has the Major gone and done it?

The Leader reports that Hon. R. M. Beatty has forsaken the Democracy and joined the Republican ranks. Come, brothers, come.

If Judge Folger is elected Governor of New York he will be a very tall man for President in 1884.

EASTERN DISPATCHES.

New York Democratic Convention.

SYRACUSE, N. Y., September 22.
When the Tammany delegates filed into the hall they were received with cheers and a few hisses. The convention was called to order and the Chairman of the Committee on Contested Seats reported that the committee recognized the county Democracy as a regular delegation from New York city; but with a view to the success of the party at the polls and for the purpose of securing entire harmony, they recommended that the New York representation be divided as follows: County Democracy 38, members of Tammany 24, Irving Hall 10. The report was unanimously adopted amidst vociferous applause. The Committee on Permanent Organization reported for permanent chairman Lester B. Foulkner.

After an address by Chairman Foulkner, General Prior presented the platform, which arraigns the Republican majority in Congress for failing to reduce taxation, and favors such tariff as shall best serve the interests of all classes; condemns the river and harbor bill; declares that in nominating the Secretary of the Treasury for Governor we see the alarming power of the Government to control selections; holds the Republican administration responsible for unredressed wrongs upon our foreign born citizens; charges that the Republican party in the State refused to renominate its Governor because he dared to use his veto power against the demands of the dangerous monied element of the State; favors local self-government of cities; favors the passage of general laws providing for the security against frauds at elections; declares that monopolies and corporations should be held subject to the laws of States, and that corporations should pay a fair proportion of the public burdens; supports constitutional amendments in favor of free canals; reaffirms the policy of Democracy that labor be held free, and condemns convict labor; declares that labor shall have the same rights as capital to combine for its own protection; and declares that the government of State and nation should be restored to the condition it was in during the primitive days of the republic.

John Kelly, in a speech, moved that the platform be referred back to the committee for the insertion of a plank condemning the enormous grants of public lands to private corporations. The convention went into nominations for Governor. The names of Erastus Corning, Homer A. Nelson, Grove Cleveland, R. P. Flower, General H. W. Slocum, Allen Campbell and Perry Belmont were presented. General Prior of the Committee on Resolutions presented the following additional plank in the platform: "We also arraign the Republican party for the wholesale gift of public lands to railway jobbers, thus robbing the mass of the people of their rightful inheritance, and demand, as far as possible, that these lands be reclaimed and reserved for occupation by actual settlers."

A Bloody Cow-boy Battle.
DENVER, September 22.
The particulars of a twelve-handed duel between cow-boys have just reached here. George Howard, owner of a herd of 3,000 cattle, and John Keeley, owner of 4,000 cattle, were driving in company from Arizona east. North of Trinidad, on the plains, the two herds were separated, Howard to follow the Santa Fe trail to Kansas City, Keeley to drive north to Denver. On the route accidental exchanges had been made, and Howard insisted on having his stock out, but was unwilling to deliver Keeley's, and it was finally agreed to settle the matter by a battle between six picked men from each party. Accordingly 12 men arranged themselves on horseback, the two sides fifty feet apart, and at a signal from the employers the fight began. At the first fire four men were instantly killed; George Lester of Howard's party was shot through the head; one of Keeley's party fell with a bullet through the breast, and two others of Howard's party were shot through the heart. Dismayed, the Howard party, with the exception of their employer, fled to camp. Keeley then rode up to Howard and proposed that they fight it out. Howard declined, saying he understood the matter settled according to the terms of battle made beforehand. This settled the matter. An equitable exchange of the mixed cattle was then made and the dead buried by other men of both sides, and herds and drivers, and those in charge separated for different routes.

Another Railroad Disaster.
NEW YORK, September 22.
Two trains telescoped in a tunnel at 86th street this morning. Five persons are reported killed. Several are still under the trains. All the police ambulances have been ordered to the scene.

NEW YORK, September 22.
There was a terrible accident this morning in Fourth Avenue tunnel on 88th street. A section of a New Haven train starting on the south-bound side of the track was run into by a Harlem

local, and two rear cars demolished. As near as can be ascertained now, four persons are killed and nineteen badly injured. The names are not yet ascertained. It is claimed that the accident was the result of gross mismanagement. A locomotive on the main line of the Hudson River Railroad met with an accident at 123d

street, blocking the track, in consequence of which the New Haven train was switched on the south-bound side. It is reported that several of the injured have since died. Among the killed are Miss Eugenia Aubert of Mount Vernon, teacher in the Normal school; among the injured, engineer of the Harlem local, Miss Hitchcock of Morrisiana (another Normal school teacher), two Misses Bennett slightly, and George Brinkerhoff severely.

The police and firemen set to work and rescued five men and two women. One of the latter soon after expired. Miss Eugenia Aubert, the teacher before mentioned, was found in a trench alongside the track. She did not die until after extracted. The list of dead so far is: Sherman Adamson, Mount Vernon; F. K. Stein, New Rochelle, Mass.; J. H. Smith, school-teacher, New York; unknown woman; and Eugenia Aubert. Injured—Harold Meeks, New Jersey; L. Logan, Mount Vernon; H. C. Houghton, New York, and his son; Aaron Hadden, engineer; Jno. Logan, Mount Vernon; M. Stein, New Rochelle; G. N. Steinbecker, Mount Vernon; Lizzie Cameline, residence unknown, both legs cut off; W. Howe, James Harper and Al. Bray, Mount Vernon; two daughters of K. Matthews and Herman Abrahams, New Rochelle.

Senator Jones' Opinion.
NEW YORK, September 21.
A Herald Washington special says: Dorsey's friends say to-night that Ben Butler has been retained to defend Dorsey in the next star route trial. Senator Jones, of Nevada, expressed the opinion to-day that at the next trial the conspirators would be convicted. He said the Administration is thoroughly in earnest, and will not relax the determination to convict.

An Editor Killed.
LITTLE ROCK, September 22.
At Hot Springs this morning Chas. Matthews, editor of the Hornet, was shot four times and killed in an affray with Col. S. W. Fordyce, Vice President of the St. Louis and Texas narrow gauge railway, and Col. Rugg, one of the proprietors of the Arlington Hotel. The shooting grew out of a bitter newspaper controversy.

A Whole Family Poisoned.
NASHVILLE, September 22.
A demented daughter of James Cleveland poisoned the whole family of six by putting strychnine in the coffee. Mr. Cleveland died and one daughter is in a precarious condition. The poisoner has wandered off and is supposed to have suicided.

NEW TO-DAY.

Administrator's Notice.

IN THE DISTRICT COURT OF THE Second Judicial District of the State of Nevada, held in and for the county of Washoe.

In the matter of the estate of William Stophor, deceased.

It appearing to the Judge of the above-entitled Court, by the petition of M. C. Stophor, administrator of the estate of William Stophor, deceased, praying for an order to sell real estate, that it is necessary and proper to sell at private sale certain portions of the real estate of said deceased, situated in the town of Reno, county of Washoe, State of Nevada, to-wit: Lot No. 9 in Block G as laid down upon the official map of said town, to pay the debts outstanding against said deceased, and the debts, expenses and charges of administration.

It is therefore ordered by the Judge of said Court that all persons interested in the said estate appear before the said District Court, on Saturday, the twenty-first day of October, A. D. 1882, at ten o'clock in the forenoon of said day at the Court room of the District Court in the Court House in Reno, county of Washoe, State of Nevada, to show cause why an order should not be granted to the said administrator to sell at private sale the real estate herein above described, for the purpose of paying the debts, charges and expenses aforesaid, and that a copy of this order be published daily at least four successive weeks in the Reno Evening Gazette, a newspaper printed and published at Reno, in said county.

Dated at Reno this 21st day of September, A. D. 1882.

State of Nevada, ss
County of Washoe, ss
I, R. S. Dehn, County Clerk of the county of Washoe and ex officio clerk of the District Court of the Second Judicial District of the State of Nevada, in and for said county, do hereby certify the foregoing to be a true and correct copy of the order duly made and entered in the proceedings of said District Court in the matter of the above-named estate.

Witness my hand and seal of said District Court this 21st day of September, A. D. 1882.

M. S. OSBURN, Clerk.

JOTTINGS.

Crockery and glassware at J. K. Everett's.

The Lake House is the place to go for good accommodations.

To-morrow is the last day of the Dearborn goods in Reno.

Chase & Thyes are entertaining nearly the entire community.

C. A. Loomis has sold his dry goods business to A. J. Clark. See notice.

Music rolls at Nasby's. Thermometer at 7, 9, 11, 1 and 3—50, 68, 71, 73, 74.

Nothing in the line of groceries or hardware that you cannot get at J. K. Everett's.

Something over 600 names on the register at Justice Young's office, and more to come.

The Milton Noble Comedy Company has engaged the Nevada Theater for November 28.

The first lot of quails of the season were received this morning at the Arcade, from Cisco.

These moonlight evenings are too utterly lovely, and young folks take advantage of them.

General O. Evans wants a good girl to wait on table at the Pollard House. See 50-cent column.

A lot of quartz-mill apparatus for the Four Hills mine in Plumas county is at the freight depot.

The shoe that O'Neil put on a two-months old colt yesterday was hardly larger than a trade dollar.

Readers of the GAZETTE should carefully pursue its advertising columns before going out shopping.

The inquiry into the Tighe-O'Keefe shooting affray has been postponed in Justice Young's Court until next Monday.

Joe Peers, the retired stage-driver, says the road from here to Pyramid, a distance of 39 miles, is down hill both ways.

The GAZETTE will run a press on tickets to-morrow. Anyone who feels the need of any can get them on short notice.

There are remaining of the Dearborn goods 86 pairs of corsets, which will be sold to-morrow at retail from 35 cents to \$1.25 per pair.

The best way to increase your business is to advertise in the GAZETTE. The man who pays more for rent than for advertising is not a shrewd merchant.

Why our townfolks go to strangers to buy drygoods and pay a fancy price for a poor article because it is sold at auction, when they can go to I. Barnett's and get goods of a better quality for less money, is a mystery. Stay by your friends.

Go to S. M. Jamison & Co., for your dry goods. If you trade with them you will get what you pay for. Parties who buy at auction are taking the refuse end of a poor stock at high prices, and as a matter of course are not satisfied. Spend your money where it will do the most good.

PERSONALS.

Hon. Wm. Cain went to Washoe this morning.

M. F. Fisher of Calistoga, Cal., is at the depot hotel.

H. M. Yerington returned from the coast this morning.

M. Nathan returned from below this morning. He has bought a full line of winter goods.

E. Griswold, Wadsworth, was in town last night. He went to Virginia this morning.

M. N. Stone of Storey, Democratic candidate for Supreme Judge of Nevada, was in town last night.

Miss Lillie Ordway has entirely recovered from her late illness, which will be pleasing news to her little friends.

L. C. Woodworth, horse-purchaser for the San Francisco street railroads, arrived this morning on the lookout for animals.

Mr. and Mrs. D. O. Mills, Mr. and Mrs. Ogden Mills and Mrs. Whitelaw Reid will leave San Francisco for the East to-morrow.

Frank Stewart, who had his leg broke at Winters' ranch in Buffalo canyon about two months ago by the falling of a derrick, is getting along on crutches very well.

Col. Coats and Ed. McClellan are circumnavigating Pyramid Lake in a boat, paddling their own canoe, having a tent and full outfit for camping. They have sent a good lot of trout to Reno.

Mrs. E. B. Crocker and party, including Mrs. Lansing, Mrs. Baldwin, Mrs. Crouch and Miss Mamie Crouch, are at Tahoe to enjoy the closing glories of Indian Summer at Idlewild. Miss Amy Crocker accompanied them, but is now in Carson visiting relatives.

Honey Lake Wheat.

Farmers report that the wheat crop in Honey Lake Valley this season will not be much more than half the usual yield, but that its extra good quality will nearly if not quite make up the deficiency.

"Hazel Kirke."

This popular play will be given at the Nevada Theater on next Wednesday evening, Sept. 27th, for one night only, by the original Madison Square Theater Company from New York. This remarkable play has been the most successful of any ever produced, having already attained the unprecedented run of over 1,750 consecutive representations in the United States. "Hazel Kirke" is now in its third week at the Baldwin Theater, San Francisco, and playing to a packed house nightly—the sign "standing room only" being a common occurrence. This play was produced in Reno last year by the same company and left an impression with our theatergoers of being one of the finest things in the dramatic line that has ever visited our city. On account of the company's prior engagement but one performance can be given, and our theatergoers must take this opportunity of seeing it or perhaps they never will again have the good fortune of witnessing what has been the most successful play of the day. The company, too, headed by those sterling artists, Miss Effie Ellsler and C. W. Coudock, is pronounced by press and public the best now traveling. The sale of reserved seats has commenced at the Postoffice, and those who wish choice seats had better go early. The theater promises to be packed on next Wednesday evening.

Political Fiddlers.

C. E. Laughton, the Republican nominee for Lieutenant-Governor of Nevada, is said to be the best violin player west of the Rocky mountains. Young Congressman Randolph of Tennessee unquestionably owed his election to the fiddle he always carried with him in the canvass. After he made a speech in a town to his friends he would immediately move the seats and clear the hall for a dance, Randolph playing the fiddle and calling out the numbers. In this way he became very popular with the young people, and they all worked for his election, almost without regard to party. He was elected as a Republican in a strong Democratic district—all because of his fiddle. Peradventure Mr. Laughton will pursue the same tactics in Nevada.

A New Name.

A new name appears in the GAZETTE's list of dry goods advertisements this afternoon. A. J. Clarke has bought out the entire stock, store and fixtures of Charles A. Loomis on Commercial Row. Mr. Clark is a very thorough business man and manages his large ranch, cattle and grocery business successfully. He is an old resident and is well known all over the county and State. There will be a full and complete stock carried and prices will be kept down by close and wise buying in the best wholesale markets. Mr. Clark will do his share of business beyond question.

Yom Kippur.

The Hebrew festival of Yom Kippur will commence this evening at sunset and continue till to-morrow evening—24 hours. Among orthodox Jews the ceremonies attending the strict observance of this festival are very impressive, and have been continued since the destruction of the temple. The children of Israel are exhorted to pray and read the Scriptures, and abstain from food. The "Sabbath of Sabbaths" ends with sunset, and then good Hebrews have a royal feast.

A Valuable Animal Injured.

Beemer's fine gray mare was badly injured last night by getting snagged on the splintered point of a hoe handle. He had turned the animal out to roll to relieve her of colic, and in tumbling about she encountered the broken ash stick, which entered her side, inflicting a bad wound. She weighs 1,300 pounds, and is a valuable animal. Beemer will have another in his dray to-morrow.

Another Castor.

Dr. Wagar will act as long term Commissioner after January 1st, provided he is the choice of the people of this county. He is well known for his good character, high purposes and respectable connections. He is a man of peace, but of firm disposition, and one who knows what he believes and will stand up to it. The county's affairs would be well administered if he was in the Board, or else there would be a fuss.

Sensible Suggestions.

At the Republican meeting the Chairman, Mr. Leete, surprised everybody by making one of the best speeches heard here for years. He showed that State, county and municipal taxes in Nevada foot up a million a year, and plainly proved that either reduction of expenses or bankruptcy were inevitable. The meeting adjourned, leaving the primaries open to all.

More Brave Hearts.

C. B. Martin, Supervisor at the Inmate Asylum, returned from a visit to Oregon yesterday morning. While away Mr. Martin was married to Miss Florence E. Brown of Astoria, thereby adding two more brave hearts to the matrimonial ranks. The GAZETTE wishes the young couple a long and happy life.

The New Comet.

Any one who will rise at 5 o'clock in the morning can get a good view of the new comet. This erratic visitor to the solar system is then above the eastern horizon, a little to the south of the point where the light of dawn is strongest, flashing upward toward the zenith like a brilliant brand. It may be seen plainly long after the sun has risen above the eastern hills. It may be that the tail is visible above the eastern horizon even before the break of day, for at times when the atmosphere is steady it may be traced, after the sun is up, for probably a distance of ten degrees. The nucleus is very bright, quite as brilliant as the planet Venus, which is at present the glory and the beauty of the western heavens in the evening. A pair of sharp eyes can no doubt pick out the comet's head at mid-day, provided they only know where to look for it.

Mills on the Truckee.

The daily arrival of ore from Candelaria, from the Potosi mine, occasions many remarks as to what might be accomplished toward making Reno a center for reduction works if a move were made in the right direction. If 15 to 20 tons of ore per day can be hauled 200 miles and reduced at a profit greater here than it will yield at the place where it is extracted, there would be a proportionately greater profit on larger amounts. The Truckee river is never so low as to be unable to furnish power for a dozen large mills, each of which would be a small fortune for its owners. It is not unlikely that next Spring owners of mines in Candelaria and Garfield district will erect reduction works in Reno and continue the experiment already inaugurated at the English mill.

Jack Campbell's Murderer.

J. J. Stubbs, the murderer of Jack Campbell at Randolph, Sierra Valley, is in jail at Downieville. Had he not been hurried away, he would have fared roughly at the hands of the armed men who were hunting him, among whom were some Indians of Sierra Valley. Many incline to the belief that Stubbs is but a hired assassin. Parties who arrived in Reno from Sierra Valley to-day say that Stubbs claims to have done the shooting in self-defense. But bystanders say that Stubbs drew a pistol on Campbell, so that the latter caught Stubbs' arm above the elbow, to throw the weapon out of range, when Stubbs bent his arm so as to shoot Campbell in the breast. Deceased had no weapons about him.

Fair Warning.

As a great many fires will be started at the present time in stoves that have not been used since last Winter, it should not be forgotten that the old accumulation of soot and dirt in the chimneys and pipes should be thoroughly cleaned out. If this matter is thoroughly looked after, the fires will burn better, and at the same time, to a great degree, the danger of our town being destroyed or considerably damaged by fire, will be removed. Let everybody attend to this. While you benefit yourself, you will not unnecessarily endanger your neighbors' property.

One More Day.

To-morrow is the last day's sale of the Dearborn goods in Reno. Auction will be held in the afternoon at 2 and in the evening at 7:30. The doors will be opened to-morrow morning at 8 o'clock and goods will be sold at private sale until 2. All cases and counters will be removed from the store to make every inch of standing room available. Parties desiring hoots and shoes will do well to call in the forenoon.

A Reported Change.

There is a report current that on or about October 1 Meyler's stages will connect with the N. & O. railroad at Antelope Station, 18 miles north of Reno, the railroad company bringing the mail free to Reno in consideration of the passenger travel. This will do away with one team on this end of the route, and the Beckwith stage is to run to Beckwith and return to Antelope daily.

An Old Rancher Drowned.

Patrick Carroll, an old citizen of Austin, was drowned at Stillwater, Churchill county, Tuesday. Carroll has been for years a stock raiser and an extensive rancher 35 miles from Austin. He was on his way from Southern California with a large band of sheep, and while watering them in a slough he got beyond his depth and was swept under.

After a Murderer.

Captain Lees, the San Francisco detective who passed through Reno yesterday, is on his way to St. Louis, to return with Patterson, the murderer of banker Cummings, of Nevada county, who was arrested there several weeks ago. The reward amounts to about \$2,000, and the California officers will have to divide with the St. Louis officers.

Removal.

A. C. Neal has removed his furniture store from the Odd Fellows Building to the house with the red front on Plaza street, near the GAZETTE office. He will be pleased to see his old friends and guarantees to give them satisfaction. Read his ad.

Reno Still Improving.

G. W. Mershon has been a long time in business and knows how to keep a hotel. He has fitted up the Ohio House in good shape, and in fact almost rebuilt it inside. He has very nice, comfortable rooms, and will let beds by the night, week or month at a fair price. Call when you are in town.

Nothing in It.

G. W. Coddington, Superintendent of the Humboldt Division of the Central Pacific went east this morning. He says the company is not even talking of a new time-card. Several papers have spoken of a change.

Another Acquisition.

While taking in the situation in and about Reno for a day or two past, Walter Ede of Sierra Valley bought the residence of William Illidge, ready furnished. Mr. Ede will locate here.

MISCELLANEOUS.

LIEBIG MALT EXTRACT.

RECOMMENDED BY PHYSICIANS of the highest repute on both sides of the Atlantic, as an invaluable Food and Nutrient in cases of General Debility, Nervous Depression, Exhausted Constitution and Female Weakness.

NURSING MOTHERS, who suffer from poverty of milk, will find it a specific for their troubles. It stimulates the digestion, sharpens the appetite, invigorates and builds up the entire system, and enables a generous flow of milk.

WEAK AND SICKLY CHILDREN, who suffer from indigestion and weakness, the result of disease, over-study or nervous strain, will derive substantial benefit from its use. It restores the system to its normal condition and brings back the bloom of youth.

INVALIDS AND CONVALESCENTS will find it admirably adapted for sustaining life, and restoring strength. When the stomach is weak and refuses other nourishment the Extract will prove an excellent substitute for food. It soothes the system, the appetite and offsets the taste.

DELICATE FEMALES, who suffer from the weakness of their sex, will derive lasting relief from its use. It improves the digestion, purifies the blood, stimulates the appetite, and restores the system.

WEAK AND DELICATE PERSONS GENERALLY, who require some artificial restorative—and especially those who are inclined to Consumption—will find this preparation exactly suited to their needs. It is a specific for the Coughs and Nervous Affections usually incident to a low state of the system.

AS A FLESH RESTORER it possesses the highest value. The whole tendency of its action is to stimulate the digestion of food-producing foods, and its effect is invariably to give fullness and roundness to the female form, and robustness to the masculine frame.

THE LIEBIG MALT EXTRACT is a pure concentrated Fluid Extract of Malt, agreeable to the taste, and free from alcohol. It is readily retained on the stomach and contains none but wholesome and nourishing ingredients. The pleasant preparation bears on the label a fine engraved likeness of Baron von Liebig, and a facsimile of his signature, as well as that of a VOGELER & CO., BREMEN, Me., Sole Agents for America.

REPUBLICAN PLATFORM.

RESOLVED, That the honor and glory of the

Republic, its continued peace, prosperity and

progress will be best served by the perpetua-

tion and continuance of the Republican

party. We declare our fidelity to its prin-

ciples as expressed in the Chicago platform of

1880, and as further embodied in its great his-

tory from its organization to the present time.

RESOLVED, That in the tragic death of Presi-

dent Garfield our country has suffered a de-

plorable loss, and the Republican party mourns

for one who consecrated a noble and heroic

life to the vindication of its great purposes.

RESOLVED, That we have faith in the pru-

dent and sagacious administration of Presi-

dent Arthur and believe it will result in pro-

ducing the best interests of the country.

RESOLVED, That the presence in our midst

of a servile race of aliens, incapable of assim-

ilating with our institutions, is a perpetual

menace to all classes of society. The relief

extended to our people by the passage of a

law excluding the Chinese by a Republican

Congress and approved by a Republican Presi-

dent is a genuine cause of satisfaction. We

are in favor of strenuously enforcing the pro-

visions of said law, and we pledge the Repub-

lican party to labor now and hereafter to se-

cure such further legislation as will perma-

nently exclude the Chinese.

RESOLVED, That we recognize the paramount

importance of maintaining unimpaired the

free public school system of the State. We

shall defend it against sectarian, political or

other influences, and we favor such fur-

ther legislation as the condition and wants

of the common schools of the State may re-

quire. As free institutions we should be so
